

sirs- please reject the NAB's petition 04-160. i am a paying xm radio customer and i feel that xm should be allowed to broadcast the content they want. i pay for their services and as such enjoy all the information that is broadcast by xm radio. this is how the free market works; i pay for certain goods/services and xm in return makes a profit by providing these services to me.

again please reject the NAB's petition as i feel it infringes on my and xm radio's rights.

respectfully

kyle kennedy
